

ARCHITECTURE & INTERIOR DESIGN COURSE

1. This course has been designed by Architects for individuals who want to enhance and make a career in the field of Architecture and Interior design.
2. This course is for individuals who are serious in learning to plan, design and also do the interiors for the building without having to depend on a third party for Detailed Interior drawings.
3. Here we learn about buildings and Interiors end to end.
4. Live projects are part of the course and case studies with theoretical knowledge from past to now will throw light on all aspects of any project handling.
5. We emphasize on Knowledge, Confidence, and Presentation Techniques in class room interaction with practising Architects and experts from the construction and building industry.

Batches:

1. Weekdays
2. Weekends
